

Highlights from Saunders College of Business Alumni

Why Saunders/RIT?

I was very strong in Finance due to my undergraduate studies and my part time CPA studies in India, so I wanted to move to the technical side. I had heard that the manufacturing program at the College of Business was very good. Also, Rochester being an industrial city was a plus point.

Applying skills from the classroom to real-world situations:

After my graduation (and at 23 years old), I joined my family's business. The company had tried many different ventures to succeed, but was not growing. Being at RIT, the key points in my course were core competence. Focusing on this and the many other techniques learned at RIT, such as SPC, organizational behavior, corporate finance and international business, I was able to really transform this company.

Outcome-driven success:

The most important outcome was definitely the success we achieved. Every day at RIT was a new day, throwing new challenges at me. I was transformed into a person who could take care of a large corporation and its many employees with ease and with high level of efficiency. Before, I could never speak to an audience, but RIT gave me confidence. After RIT, presentations, speeches, bargaining with trade unions, and negotiating deals with high level business deals are a piece of cake.

Masters in Management, Class of 1999

Employer: Precision Stamping

Title: Joint Managing Director

Home Country: India

Harsh Gupta

"Today, my company deals with customers like Emerson, GE, ABB, Siemens, Honda, LG electronics, Mercedes and many more. The company is dealing with many leading companies in their respective fields. The company is beating the industry trend each year and registering growth of 15 - 20% year to year. I have no words to thank RIT enough for this."

Precision Stamping was founded in 1971 at Faridabad, the satellite industrial township near New Delhi. With an annual turnover of 2 billion, the unit turns over a large variety of stampings and laminations for a host of rotating machines. Manned by over 1,000 skilled workforce and engineers, the company boasts of a high degree of professionalism in manufacturing and marketing.

DAY ONE | career ready

- Strong industry connections, offering real world experiences in and outside of the classroom
- Among the world's oldest and largest cooperative educational programs
